Daily Screening Form Directions

Dear Parents and Guardians,

Our start to the hybrid phase of our return to learning began today and we are very grateful for the effort everyone is taking to work together to keep our environment safe for learning. We recognize that the process of completing a daily screening form is a new morning procedure for everyone.

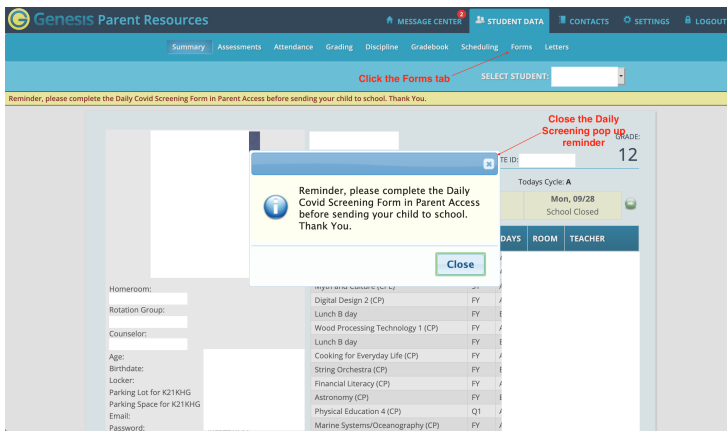

We know that no one control strategy alone can limit the transmission of COVID-19, however daily screening of your children may in fact be the most important protective measure you can take to assist us in limiting transmission chains. The successful and sustained reopening of our schools requires continual collaboration between administrators, staff, and teachers and ongoing cooperation among teachers, students, and parents. Everyone has a critical role to play. Getting through this pandemic will require a great deal of social trust.
